2nd EDITION

THE SECOND EDITION OF THE SMART & SUSTAINABLE URBAN COASTAL ENVIRONMENT DAYS (LUDI)

It will take place **16 and 17 May 2019**, during the European Green Week.

Days of reflections and discussions, these meetings join academics, firms, associations, communities, students, alumni... on the societal challenge of the Urban Digital Sustainable Coastline and the problematics attached.

TOPIC SELECTED

“Building and Preserving Sustainable Urban Coastal Cities.”

In this area of specialisation, speakers who bring international references, intervene and show the research studies lead by the University of La Rochelle and partners. With multidisciplinary approaches, they promote concrete examples of innovations, which actively develops to the solution of the sustainable development of territories concerned.

PUBLIC

The first day is open to public

The second is addressed to professional from the world of work, communities, institutions, associations, higher education and research.

FACILITATOR

Frédéric Denhez, author, journalist, speaker.
